

SHAYA - BALTIC 87

BALTIC YACHTS | JUDEL/VROLIJK

OVERVIEW

YEAR	1996
LOA	86' / 26.20m
LWL	73'6" / 22.40m
BEAM	20'4" / 6.20m
DRAFT	2.80 - 4.70m
DISPLACEMENT	52,000kg
BUILDER	Baltic Yachts
DESIGNER	Judel/Vrolijk
ACCOMMODATION	12 berths / 6 cabins incl. crew

SHAYA represents an exceptional opportunity to acquire an 87-foot performance cruising yacht from Baltic Yachts - one of the world's most highly regarded builders of advanced composite sailing yachts - at a compelling level relative to her pedigree, specification and modern replacement cost. Designed by Judel/Vrolijk and constructed in advanced Kevlar composites, she combines true bluewater capability with sophisticated engineering, flexible accommodation and the craftsmanship for which Baltic Yachts is internationally renowned.

A RARE BALTIC OPPORTUNITY

Recreating a yacht of this size, complexity and build quality today would require a substantial investment, making SHAYA a particularly attractive proposition for a buyer prepared to complete a refit tailored to their intended use.

Commissioned by a German hydraulics industrialist, no expense was spared in developing a yacht that could be sailed and operated with remarkable ease for her size. Her sail plan is fully hydraulically controlled and features a Southern Spars carbon-fibre mast and furling boom. A retractable ballasted bulb keel, twin rudders and twin engines provide excellent manoeuvrability, offshore capability and access to shallower cruising grounds.

Her advanced hydraulic systems are among her defining features. The pilothouse roof can be raised and folded away at the touch of a button, transforming the protected saloon and helm area into an open-air entertaining space. At the stern, the transom opens hydraulically to create an innovative tender garage, allowing the tender to be driven directly in and out while providing safe and convenient boarding for guests.

Internally, SHAYA offers a generous and sociable layout finished in beautifully crafted varnished teak. The low-profile pilothouse and saloon incorporate a complete interior helm station, while accommodation comprises five private staterooms with en-suite bathrooms, separate crew quarters and a fully equipped galley with substantial refrigeration. Her versatility makes her equally suited to private family cruising, extended bluewater passages or charter operation.

SHAYA underwent a comprehensive refit in 2017, representing an investment of approximately EUR 1.4 million. Further works were completed in 2023, including removal and servicing of the rig in Valencia, an extensive rig inspection, upgraded electronics and comprehensive electrical works.

Having recently returned from an Atlantic-side cruise, SHAYA is now ashore in Galicia and available for immediate inspection. She offers a rare opportunity to secure a highly engineered Baltic yacht at a fraction of the likely cost of commissioning a comparable new build, with the ability for her next owner to complete the remaining works and personalise her for future cruising. For buyers seeking genuine Baltic Yachts pedigree, proven offshore capability and substantial underlying value, SHAYA warrants serious consideration.

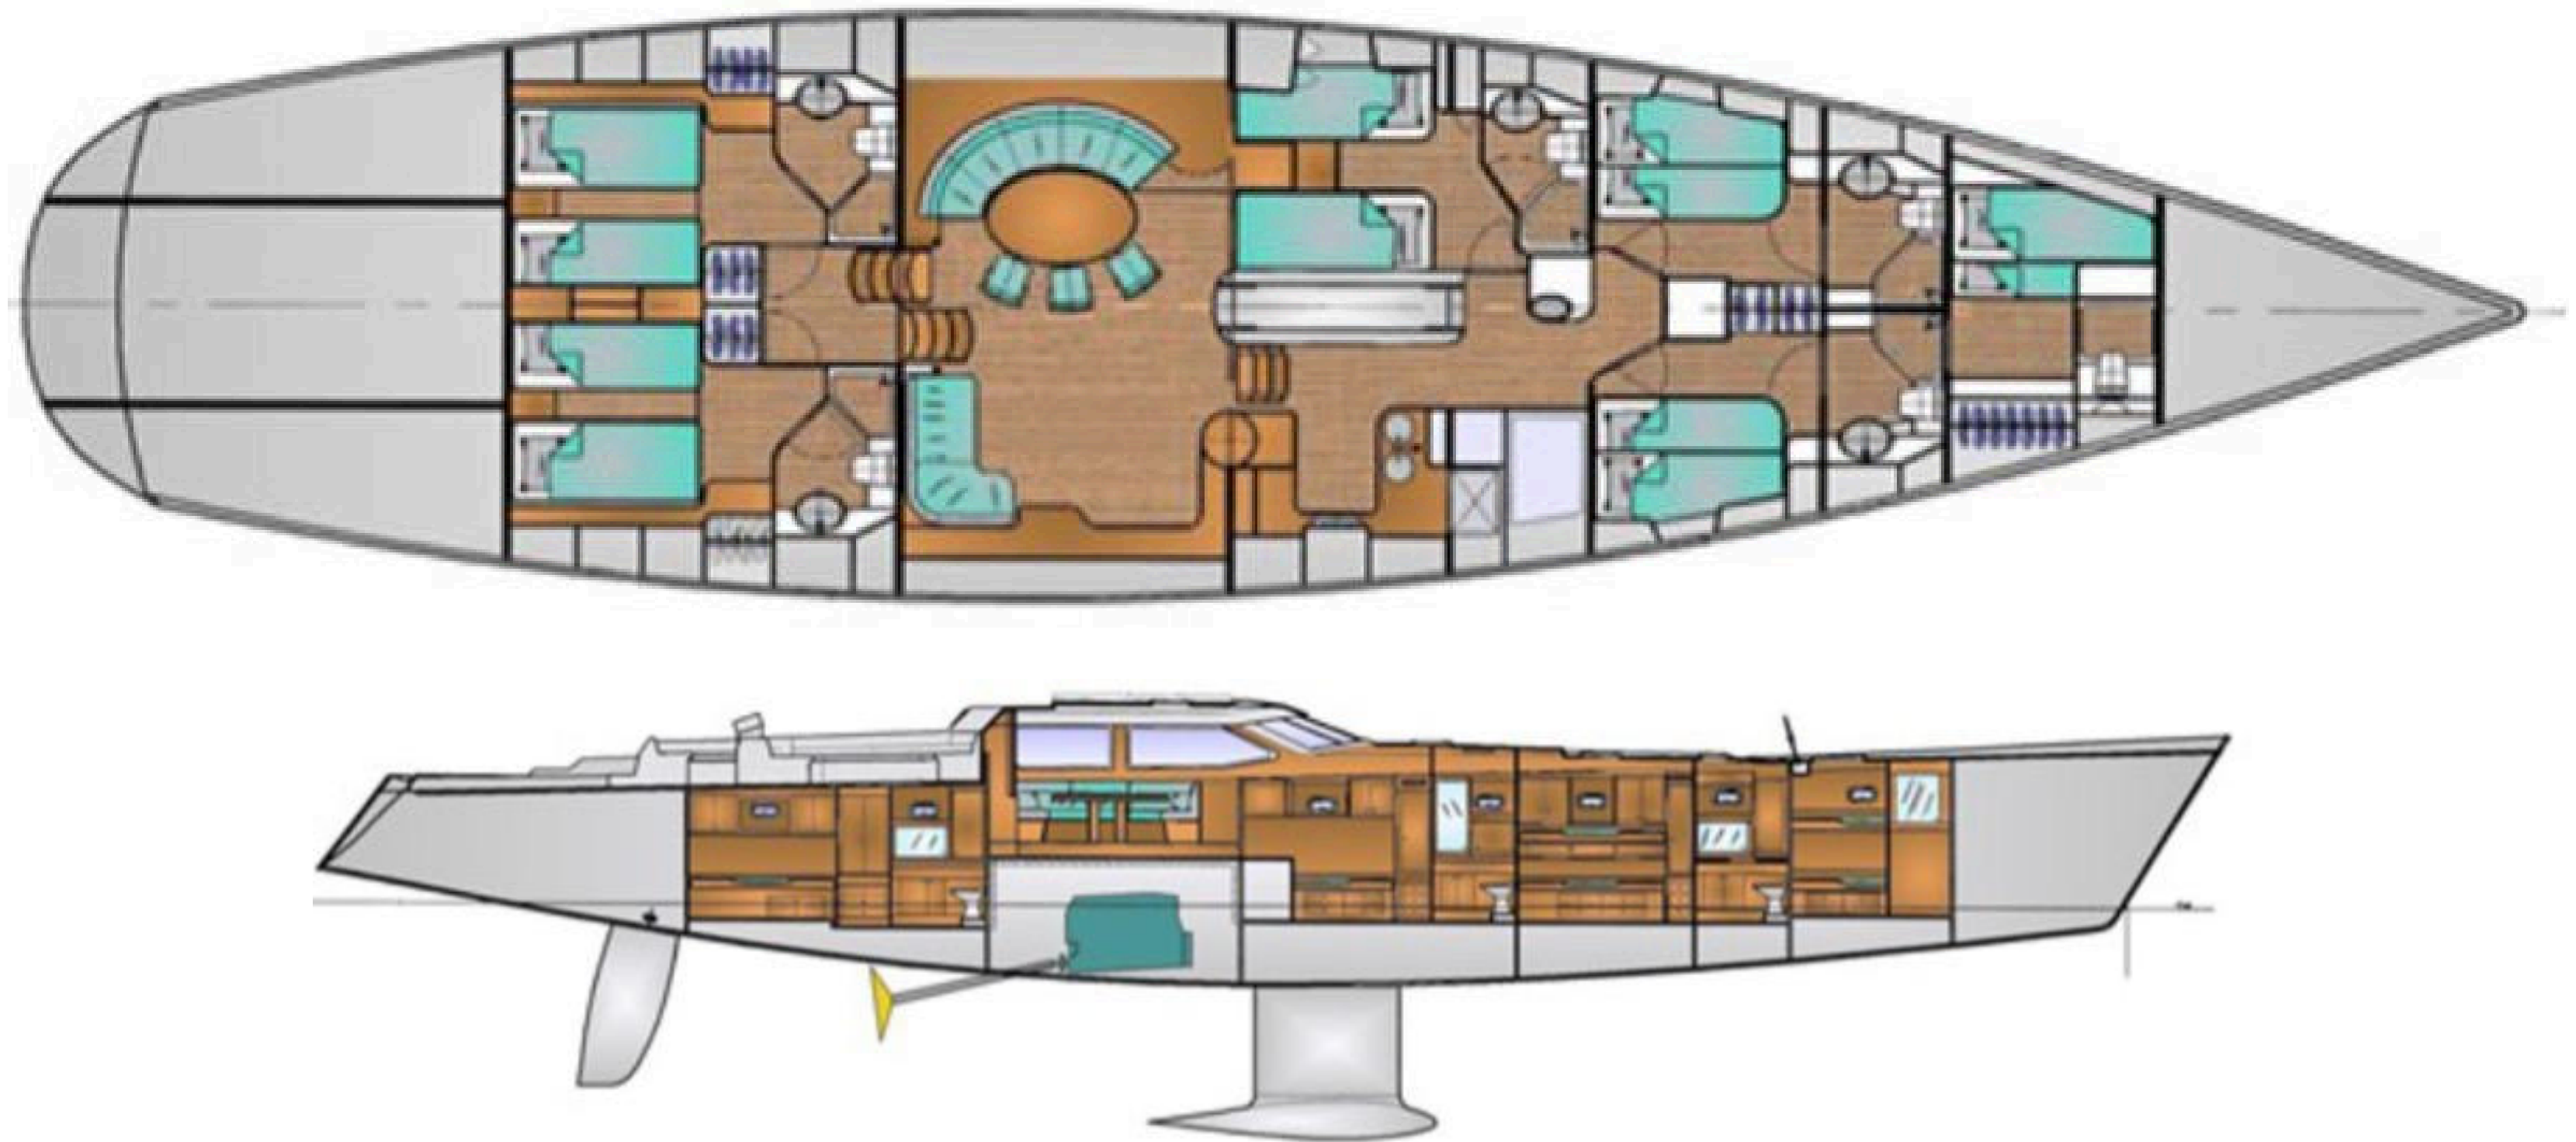

GENERAL ARRANGEMENT

CONSTRUCTION & MACHINERY

HULL, DECK & SUPERSTRUCTURE

- State-of-the-art cored composite hull and deck using epoxy, Kevlar and carbon fibre for a light, rigid structure.
- Topsides and superstructure finished in Awlgrip. Bilges painted in 2017.
- Teak decks show significant wear.

KEEL & RUDDERS

- Twin rudders with Whitlock mechanical steering and teak/carbon wheels; serviced 2023.
- 12,000kg hydraulically operated lifting bulb keel retracting into an integral hull pocket.
- Keel system rebuilt in 2017, including removal, fairing, bushings and new hydraulic ram; serviced 2023.

ENGINES & GEARBOXES

- Twin MTU OM366 167hp turbocharged marine diesels with ZF transmissions and three-blade Max Props.
- Engines fully serviced in 2017 at approximately 11,000 hours; full service completed in 2023.
- New exhaust pipework, hoses and engine-room hoses in 2017.

PROPULSION & STEERING

- Twin helm wheels with integrated engine, bow-thruster and sailing controls; hydraulic controls renewed in 2023.
- Lewmar 40hp retractable bow thruster, new 2017.
- PTOs, shaft seals, shaft bearings and cutless bearings renewed in 2017.
- Through-hulls serviced or replaced and port-engine exhaust muffler renewed in 2017.

ELECTRICAL, PLUMBING & TANKAGE

ELECTRICAL SYSTEMS

- 24V DC system with 1,500Ah lithium service battery bank installed 2017 and charged by engine alternators.
- 12V navigation electronics system; 220V/50Hz single-phase AC system.
- Two Mastervolt chargers, including one renewed in 2023 for the lithium house bank.
- 5kWh Mastervolt sine-wave inverter.

GENERATOR

- 20kW Northern Lights generator installed 2017; 3,911 hours recorded June 2025.
- Generator exhaust pipework and hoses renewed in 2017.

PLUMBING

- Hot-water capacity: 80 litres (2014).
- Gianceschi fresh-water pump (2014), serviced 2017; six Rule sump pumps.
- HEM 200 litre-per-hour watermaker rebuilt in 2023.
- Salt-water deck wash forward and aft.

BILGE SYSTEM

- Rheinstrom and Rule pumps throughout, backed by engine-driven and manual Whale/Rheinstrom pumps.

TANKAGE

- Fuel: approximately 3,000 litres.
- Fresh water: 2 x 600-litre stainless-steel tanks.
- Grey water: 2 x 200-litre stainless-steel tanks.
- Black water: 2 x 200-litre stainless-steel tanks.
- Four Rheinstrom macerator pumps.

NAVIGATION & DOMESTIC EQUIPMENT

NAVIGATION

- Raymarine RN300 GPS and Sailor HF SSB RE2100.
- Two B&G Hydra 2 displays.
- B&G Zeus chartplotter, H5000 FFD and H60 wireless VHF handset with DSC - all 2023.
- Maretron DSM410 display and Dell Latitude computer.
- Simrad remote video camera mounted on spreader.

COCKPIT HELM STATIONS

- B&G FFD, wind displays, Zeus chartplotter and autopilot.
- Furuno GPS/WAAS navigator.

GALLEY & LAUNDRY

- Miele four-burner gimballled electric/induction cooktop.
- Miele dishwasher (2023), microwave/convection oven and washer/dryer.
- Miele under-counter refrigerator (2017).
- IceBerg 24/220V refrigeration/freezer system rebuilt in 2023.
- Nespresso coffee machine.

DOMESTIC SYSTEMS

- Actana electric-flush heads and hot/cold shower at stern platform.
- Two Gianceschi extractor fans installed 2017.
- Samsung 40-inch Smart TV with Wi-Fi/Bluetooth, Philips multisystem video, Pioneer CD and Samsung Blu-ray/DVD.

A high-angle, wide shot from the deck of a sailboat, looking out over a harbor. The water is a deep, clear blue. In the background, a hillside town with many small, colorful buildings is visible. Numerous other sailboats and motorboats are moored in the harbor. The foreground shows the white hull and wooden deck of the boat, with a stainless steel railing and a winch visible.
